

WHAT IS NEXTERRA?

It's the result of years of research and development, a precise blend of technology and design, and the next generation of carpet tile backing. Nexterra sets industry standards for sustainability, performance and ease of installation. Nexterra is a high-performance PET backing made from 35% post-consumer content recycled water and soda bottles with an additional 50% from post-consumer recycled glass.

ENVIRONMENTAL FOOTPRINT

- Industry-leading 85% post-consumer content: 35% PET, 50% Glass
- Each 24" x 24" tile saves ten 16-ounce bottles from landfills
- 100% recyclable
- Beaulieu Commercial currently recycles 40 million pounds of PET into fiber

FRESH ENVIRONMENTS

- Each Nexterra tile features an additive, Puralex™, that helps reduce odors from indoor air
- Puralex is locked into the carpet and stands up to repeated cleanings
- Puralex renews itself, like an activated charcoal filter

PERFORMANCE

- 50 percent stronger than conventional carpet tile backing
- Excellent dry/wet tuft retention
- Excellent dimensional stability
- Tested on over 1,000,000 foot traffics and performed exceptionally

INSTALLATION

- 35% lighter than conventional tile backing
- Easy floor prep

LIFETIME WARRANTIES*

- Wear
- Delamination
- Edge ravel
- Zippering
- Static propensity
- Dimensional stability
