High Stitch Loc Unitary Beaulieu Commercial Code A6

A-6 is a standard unitary backing with a rich latex compound. *This product was engineered and designed for heavy traffic use of 1,000 traffics or more per day in areas such as office buildings, schools, airports, banks, restaurants, hotels/motels, churches and sports clubs.

FEATURES

WEARABILITY: A-6 with its 30 ounces rich latex compound provides excellent resiliency against rolling traffic, preventing premature wear and fiber loss.

RECOMMENDATION: We recommend this backing for all loop pile (**non-graphic construction**) that requires a high tuft bind. This backing is recommended for direct glue down installations only.

TUFT BIND: Tuft Bind (ASTMD 1335 67) STYLE DEPENDENT (See Zippering Warranty)

LIMITED WARRANTY:

- A. 10 Year No Edge Ravel, Seam Sealer is Required.
- B. 10 Year No Delamination
- C. 10 Year Limited Wear Warranty
- D. 10 Year Static
- E. 10 Year Zippering

Note: For specific warranty information, contact your sales representative.

INSTALLATION

GENERAL: As with all installation, proper technique and adherence to CRI 104/105 and manufacturer's procedures are required for proper performance of the finished carpet.

ADHESIVES: The adhesive recommended for A-6 Backing is iLoc Solv-Free Premium Adhesive as specified by Beaulieu Commercial. Seam sealer is required for additional protection at the seams. The seam sealer recommended is iLoc Solv-Free Premium Adhesive. Failure to properly apply adhesive and seam sealer could void all warranties.

INSTALLER QUALIFICATIONS: The floor covering installation contractor or installer performing the installation shall be certified by the Floor Covering Installation Board or shall demonstrate his ability to comply with the Ten Point Plan for Installation. Excellence promoted by the Floor Covering Installation Board. For certification or verification, call 706/278-9621.
